

MOLDOVAN REACTIONARIES WIN PRESIDENTIAL ELECTIONS

This is a sad day for the world, and mostly for the Moldovan people. The wretch called Maia Sandu, this despicable woman who dared to even compare the glorious communist guerillas which liberated the country, to the plague of nazism, whom a variant of it she and her bosses serve and represent, will be president starting from tomorrow. But who voted for her? The so called Moldovan diaspora. Why did they vote her? For an European Passport. They sold out their nation and people for the hopes of securing a *Belgian wage*. But will the Moldovan people accept this capitulation to fascism which for so many years they have fought against, without even a fight? These days will show. For sure, there are many cards to be played, there exists a parliament where the socialists are more than the fascists neoliberals of Sandu the Banker. Dodon for now told the people to not open up conflict, and to wait. Wait for what? Can the socialists keep the fascists from achieving their aims at bay with legal means? Can they make use of the parliament against Sandu which is now president too? Personally, i dont think that the heroic Moldovans would accept such traitors as heads of the state, but it is up to them to finish of their own fascists ala Cheka style, not me. For sure time is up, the fascists need to be *cheked*. Some dietologist researchers have made a new discovery that it will be proved very beneficial to the kind of pigs these fascists are. 2.6 grams

of lead injected in their forehead proved to be a very fast method to lose all the weight besides the bones. A truly revolutionary method indeed!
